INFORMAL SECTOR

Vignettes of informal workers

Vignettes of informal workers resulted from discussions with students, academics, researchers, activists and inform workers themselves. The informal sector with its gamut of definitions is best understood through borderless portraits, brief descriptive sketches, self-contained expressions of situation – all emphasizing features and qualities of informer work and workers – like vignettes that fade off at the edges.

Social protection of the informal sector in Southeast Asia

This research work has enhanced the empowerment of workers in the informal sector distinguishing the variety of definitions of the informal sector to the social safety nets provided – or not provided to them – and by whom. Its significance is through the provision of a panorama of the socio-economic impact of informal workers and the dynamic changes in some parts of Southeast Asia during the last decade.

PRIVATE EMPLOYMENT

Private employment agencies, temporary agency workers and their contribution to the labour market

The purpose of this paper is to raise awareness of the Convention’s importance among governments, employers and workers, who have a common interest in promoting its ratification. Ratifying Convention No. 181 encourages improved efficiency of national labour markets by permitting private actors to enhance matching of supply of and demand for workers.
