## DOMESTIC WORK

### Regional model competency standards series: domestic work

Domestic workers form a significant proportion of the migrant workforce in Asia and the Pacific. Promoting decent work for domestic workers requires concerted efforts, and the skills development and recognition of domestic workers play

an important part in meeting this challenge.

Publisher: ILO-Regional Office for Asia and the Pacific

## CHILDREN

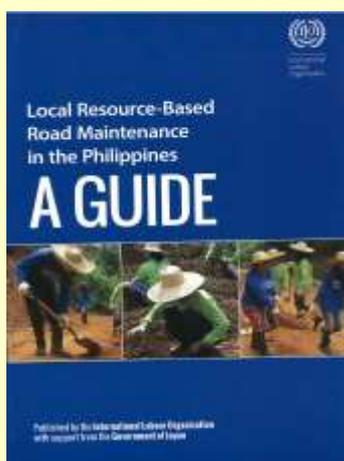

### Final report: 2011 survey on children 5 to 17 years old

The 2011 survey report presents information on the demographic and socio-economic characteristics of the working children aged 5 to 17 years as well as some information on the households they belonged to.

Publishers: ILO-International Programme for the Elimination of Child Labour (IPEC) and Philippine National Statistics Office (NSO)

## ROAD MAINTENANCE

### Local resource-based road maintenance in the Philippines: a guide

Since 1970, the ILO had refined the labour-based method for infrastructure works. This method maximizes employment opportunities without compromising engineering standards at competitive rates.

The labour, both skilled and unskilled, uses equipment, tools and materials available in the communities where the infrastructure activities are located.
