100 years of social protection: The road to universal social protection systems and floors

The report is a compendium of 100 inspiring country stories about building social protection systems and floors. It includes stories about the historical development of social protection in countries, showing that building social protection

systems is a progressive process that relies on national dialogue.

Changing business and opportunities for employers' and business organizations

The research identifies five global trends that are drastically changing business models regardless of size, sector or location: technological innovation, global economic integration, demographic and generational shifts, climate change and sustainability, and a global shortage of skilled labour.

Building partnerships for effectively managing labour migration: Lesson from Asian countries

The report focuses on labour migration trends; looks at the innovative policy elements particular to the Republic of Korea's employment permit system; emphasizes the importance of greater bilateral and multilateral partnerships to ensure portability of social security for migrant workers. Finally,

empirically illustrates the influence of labour market intermediaries on labour-migration management in the electrical and electronics industry in Malaysia.

2018 labour overview: Latin America and the Caribbean

The study summarizes economic trends in the countries of the region in 2018 and analyses the impact on labour markets observed this year, as well as expected results for 2019. This year's feature article marks the 25th anniversary of the Labour Overview, at a time the ILO is gearing up to mark its Centenary, starting in January 2019.

Core elements of a bilateral agreement or a memorandum of understanding on labour migration

The increasing complexity of the migration of workers across borders highlights the importance of International cooperation in the governance of migration processes and the protection of migrant workers. Such cooperation on migration can take

various forms ranging from multilateral and regional frameworks to national-level arrangements. In general, multilateral and regional frameworks and agreements to govern migration are preferable because bilateral arrangements can be affected by unequal power relations of the member States.

Assessment guide for bilateral agreements and memoranda of understanding on labour migration, with a special focus on Bangladesh

Bilateral labour agreements (BLAs) and memoranda of understanding (MoUs) between countries of origin and countries of destination provide States with operational frameworks for regulating labour migration flows; ensuring conditions for decent work and protection of migrant workers; and exchanging information on needs and trends of the labour market.
