► How the COVID-19 pandemic is changing business: A Literature Review

## How the COVID-19 pandemic is changing business: A literature review

To better support our constituents, we need to understand the ongoing changes caused by COVID -19. This paper is structured around three main elements: the work-

force; the workspace; and wellbeing. We hope this will help employer and business membership organizations as well as individual businesses, achieving stronger recoveries, greater resilience, and growth.

## World employment and social outlook: Trends 2022

The report examines the impacts of the crisis on global and regional trends in employment, unemployment, and labour force participation, as well as on job quality, informal employment and working poverty. It also offers an extensive analysis of trends in temporary employment both before and during the COVID-19 crisis.

## The future of diversity

This book offers new perspectives on the concept of diversity and the role diversity can play in the future world of work. It also sheds light on the policy dilemma between respecting individuals and countering structural inequalities, which often

requires categorization into groups.

## Guidance for operation and maintenance (O&M) of irrigation systems: Maximizing local resources and community participation, Nepal and the Philippines

The objective of the study is to assess the present status of O&M of diverse irrigation systems in Nepal and the Philippines that have been supported by ILO in the past and extract lessons on Local Resource-Based Approaches (LRB) and Human Rights-based (HRB) approaches that EIIP can use in future approach development.

### Capturing the digital economy: A proposed measurement framework and its applications—A special supplement to key indicators for Asia and the Pacific 2021

This publication sets out a framework for measuring the importance of the digital economy in national and global production

processes. It proposes a definition of the core digital economy and an input-output analytical framework to measure it.

*Publisher: Asian Development Bank (ADB)*

### Climate risk country profile: Philippines

This publication synthesizes climate characteristics and projections, vulnerability to natural hazards, sectoral climate change impacts, and adaptation priorities in the Philippines. It outlines rapid onset and long-term changes in key climate parameters, as well as the impact of these changes on communities, livelihoods, and economies—many of which are already underway.
