

Remember, the National Policy on HIV and AIDS in the World of Work protects your rights:

- > People should be allowed to work as long as they are fit to work.
- > There should be no discrimination due to HIV status at workplace.
- > Workplaces need to have HIV prevention and care programmes for workers and their families.

“ Business needs the best of human talent. Discrimination marginalises talent. **Stand up for zero discrimination** at the workplace.... We call upon our members to be part of ‘**Getting to Zero at work**’ campaign. ”

“ People living with HIV **should not be denied the opportunity to work.** We are working with the employers, government and the ILO to end discrimination at workplace due to HIV and AIDS. ”

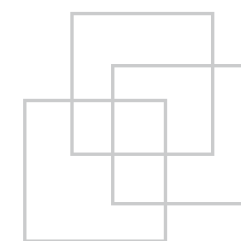

Know your HIV status:

**The Earlier
The Better**

VCT@WORK
5 million workers by 2015

Produced by the ILO

Why should you take an HIV test ?

IF YOU TEST POSITIVE

You can start treatment on time and be in good health.

You can take precautions and protect your partner/spouse.

You can continue to work and achieve your career goals.

You can have children who will not be born with HIV.

IF YOU TEST NEGATIVE

You stop worrying !

But be careful to stay free of HIV.

***HIV testing is Voluntary, Confidential and Free.
It is available at your nearest government hospital.
For more information call toll-free
national HIV/AIDS helpline 1097***
