INTRODUCTION

STATISTICS ON SOCIAL DIALOGUE

Unionization

Collective bargaining coverage

Strikes and lockouts

- Challenging fields of labour statistics
- Focus on statistical indicators
- Close collaboration STATISTICS – INWORK
- Comprehensive approach: data compilation, quality checks, dissemination, analysis and methods

International Labour Office

20th International Conference of Labour Statisticians
10-19 October 2018, Geneva

DATA COMPILATION

Annual questionnaire of labour statistics

- Union membership and density
- Collective bargaining coverage and rate
- Strikes and lockouts: number, workers involved, days not worked

Collaboration with INWORK

- ➔ On unionization and collective bargaining:
- Special inquiries in specific countries
 - Consultations with national and international experts

Statistics available in ILOSTAT for:

- 124 countries on strikes and lockouts
- 104 countries on trade union density rates
- 85 countries on collective bargaining coverage rates

DATA COMPILATION

OUR OBJECTIVES

- Provide constituents with key information on industrial relations
- Enable monitoring and assessment of trends, outcomes and impact
- Assist in establishing / strengthening data collection and analysis systems

International
Labour
Office

20th International Conference of Labour Statisticians
10-19 October 2018, Geneva

ANALYSIS

USING THE DATA TO TELL STORIES

- Analysis of results jointly with INWORK
- Forthcoming issues in ILOSTAT series *Spotlight on work statistics*
- Contributions and inputs to papers and reports

International
Labour
Office

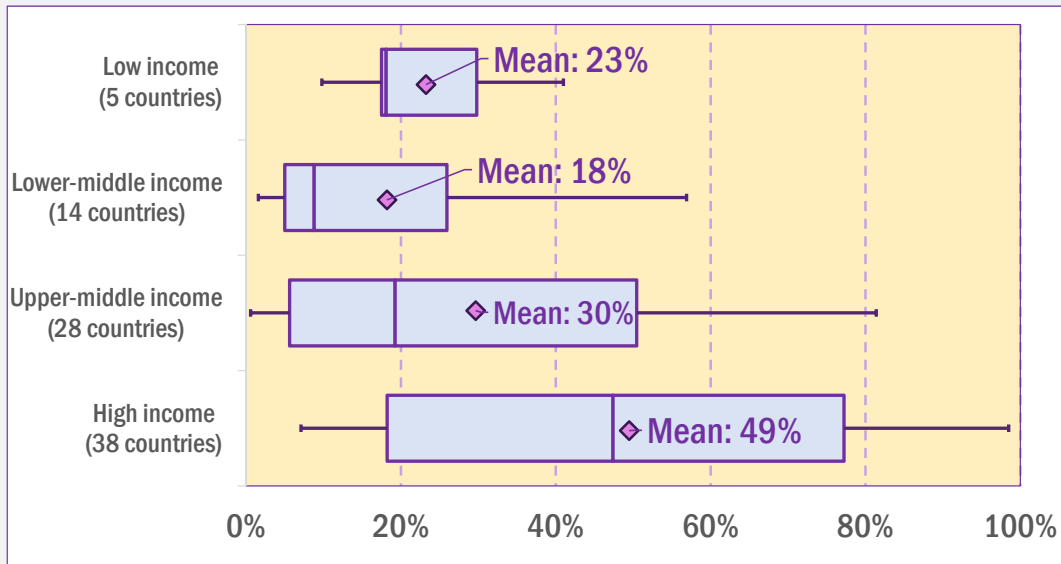

20th International Conference of Labour Statisticians
10-19 October 2018, Geneva

ANALYSIS

SOME FINDINGS

Dispersion of collective bargaining coverage rates by income group

World Bank country classification by income. Source: ILOSTAT.

International Labour Office
