INTERNATIONAL TRAINING CENTRE OF THE ILO (ITCILO)

- The International Labour Organization and the Italian Government established the International Training Centre in 1964 in Turin, Italy, as an advanced vocational training institute.
- The Centre provides training and related services that develop human resources and institutional capabilities.
 - We contribute to achieving the ILO's goal of decent work for women and men.

And in 2019...

SDG Indicator framework on employment and decent work: Measuring, monitoring and reporting

25/03/2019 – 29/03/2019, Turin, Italy – ENGLISH

Content: This course aims to equip national and international stakeholders in the new SDG statistical monitoring system through enhancing institutional capacity to identify, collect, analyse and disseminate labour market information and other indicators related to decent work.

STATA for Labour Market Analysis

29/07/2019 – 02/08/2019 Turin, Italy – ENGLISH

Content: This course aims to equip national and international stakeholders with the necessary skills to use the statistical software STATA to analyze the labour market for evidence-based policymaking, including SDG and decent work indicators.

Labour Market Statistics and Analysis Academy

18/11/2018 – 29/11/2019, Turin, Italy – ENGLISH

Content: The Academy aims to better equip and situate national and international stakeholders in the new SDG statistical monitoring system. The Academy is designed to enhance institutional capacity to identify, collect, analyze and disseminate labour market information and other indicators related to decent work. It emphasizes the latest resolutions on the statistics of work, employment, and labour underutilization as important pillars of the new SDG indicator framework, not only for targets in Goal 8, but also in other Goals related to the decent work agenda.
