

Draft

Suggested Points for discussion

1. What challenges does the chemical industry experience in promoting decent and productive work, and how do initiatives in employment and vocational education and training (VET) contribute to the promotion of decent work in the industry?
2. What are the most important issues pertaining to occupational safety and health in the chemical industry and how could they best be addressed by governments, employers' and workers' organizations through innovative initiatives in the industry?
3. What actions are necessary to support corporate social responsibility (CSR) and voluntary initiatives in order to promote decent work through social dialogue in the chemical industry, in particular among small- and medium-sized enterprises and to enhance the industry's contribution to sustainability?
4. Recommendations for future actions by the International Labour Organization and its Members.
