Implement the ILO Recommendation on
HIV and AIDS (No. 200)

International
Labour
Organization

United Nations Entity for Gender Equality
and the Empowerment of Women

“ **Women’s empowerment** is one of the only
HIV vaccines available today. Women are
lagging far behind men in access to land, credit
and **decent jobs**. We must abolish the multiple
barriers preventing them from seizing **economic
opportunities** and empower them
to reduce their vulnerability to HIV.
**Gender equality is key to
getting to zero.** ”

Michelle Bachelet

Executive Director, United Nations Entity for Gender
Equality and the Empowerment of Women (UN WOMEN)
