Implement the ILO Recommendation on  
HIV and AIDS (No. 200)

International  
Labour  
Organization

“Discriminating against **staff members** living with or affected by HIV does more than rob them of respect; it also potentially robs them of their livelihoods - and even their lives. We cannot succeed in the battle against HIV and AIDS without **zero tolerance for stigma and discrimination** in the workplace and every place.”

**Anthony Lake**

Executive Director, United Nations Children's Fund  
(UNICEF)
