Implement the ILO Recommendation on
HIV and AIDS (No. 200)

International
Labour
Organization

World Health
Organization

“ Health workers stand on the frontline of the
AIDS response. If countries are to achieve
universal access to HIV services, one of their first
steps must be to ensure that **all health workers**
have access to effective and affordable HIV
prevention, treatment, and care. ”

Dr Margaret Chan

Director-General, World Health Organization (WHO)
