Implement the ILO Recommendation on  
HIV and AIDS (No. 200)

International  
Labour  
Organization

“Everyone has the right to work and everyone has the right to health - that includes gay men. By creating **workplaces free of homophobia**, we can reduce HIV risk while increasing employee satisfaction and productivity. Eliminating stigma and discrimination is essential for creating an HIV-free generation.”

George Ayala

Executive Director of the Global Forum on MSM  
& HIV (MSMGF)
