CONFERÊNCIA COM A OIT – LISBOA

Reflexões sobre trabalho digno na era digital

27 e 28 • Janeiro • 2022
Lisboa • Webconferência
Ação de Formação Contínua Tipo B

Objetivos: Análise e reflexão sobre temas atuais referentes ao Direito do Trabalho que se encontram na agenda da OIT

Destinatários: Juízes/as e Magistrados/as do Ministério Público, Advogados e outros profissionais da área forense.

1.º dia – 27 de janeiro

Manhã

10h00  Abertura
João da Silva Miguel, Diretor do Centro de Estudos Judiciários
Mafalda Troncho, Diretora OIT - Lisboa

10h15  O papel do trabalho através de plataformas digitais na transformação do mundo do trabalho
Uma Rani, Economista, Departamento de Investigação da OIT

11h00  Debate

Tarde

14h30  Implicações da inteligência artificial no trabalho
António Brandão Moniz, Professor Associado de Sociologia Industrial na Faculdade de Ciências e Tecnologia da Universidade Nova de Lisboa

15h15  Debate

15h30  A mobilidade geográfica do trabalhador na era digital
Tiago Pimenta Fernandes, Advogado e Professor Auxiliar na Universidade Portucalense
World Employment and Social Outlook 2021

The role of digital labour platforms in transforming the world of work
Rapid growth of platforms...  

- Rise of the digital labour platforms
  - Cloud computing and infrastructure
  - Use of big data and algorithms
  - Availability of venture capital funds
  - Innovative ways of working, and flexibility for both workers and businesses
  - Increasing relevance with COVID-19 pandemic

Exponential growth in the number of platforms

Concentration of platforms in 2020
- United States 29%
- India 8%
- United Kingdom 5%

5x rise since 2010
Features of platform business model

ICT-enabled
Data-driven
Algorithmically managed

Workers directly employed by the platform:
- 99designs 139, 1,200,000
- Appen 800, 1,000,000
- HackerRank 200, 11,000,000
- Meituan 54,580, 3,987,000
- PeoplePerHour 50, 2,400,000
- Rappi 1,500, 25,000
- Uber 26,900, 5,000,000

Workers mediated by the platform:

Advancing social justice, promoting decent work
The report draws on the findings of surveys and interviews:

- 12,000 workers in 100 countries

- Freelance, contest-based, competitive programming and microtask platforms
- Taxi and delivery sectors

Representatives of:

- 70 businesses of different types
- 16 platform companies
- 14 platform worker associations
From start-ups to Fortune 500 companies, many businesses are using digital labour platforms

- Businesses use online web-based platforms
  - Recruitment
  - Accessing knowledge for innovation
  - Cost reduction and efficiency

- Opportunities for business process outsourcing companies and start-ups
  - Transformation and expansion of BPO companies
  - Proliferation of AI start-ups
Businesses and consumers use location-based platforms

**Taxi sector**
- Safety
- Convenience
- Competitive price

**Delivery sector**
- Improved visibility
- Enhanced productivity
- Increased demand
- Expansion of customer base

Advancing social justice, promoting decent work
Who are the platform workers?

- Majority are below the age of 35 years
- Often highly educated, particularly in developing countries
- Mostly men, but women are also finding work on platforms
- Women comprise:
  - 4 in 10 workers on online web-based platforms
  - 1 in 10 workers on location-based platforms
- Opportunities also for persons with disabilities and migrant workers
- Classified as independent contractors or partners or self-employed
What motivates workers to perform tasks on platforms?

- Complementing pay and flexibility (freelance and microtask)
- Improving skills and career opportunities (competitive programming)
- Lack of alternative employment opportunities, work flexibility and better pay (taxi and delivery)
- For many women (developing and developed countries): work from home or work flexibility is an important motivating factor
Earnings vary across countries and types of platforms

- Most workers earn less than the average on online platforms (US$3.4).
- Location-based platform workers earn more than their traditional counterparts in the taxi and delivery sectors.
- Differences can be observed between countries and gender:
  - Workers in developing countries tend to earn less than those in developed countries on freelance platforms (60 per cent less).
  - A significant gender pay gap can be observed on some platforms at the country level, while the findings are quite mixed globally.

Commission fees have a major impact on incomes

- Working hours are quite high in location-based platforms:
  - 65 hours in taxi sector; 59 hours in delivery sector per week.
  - On online web-based platforms workers spend 8 hours in a typical week performing unpaid work.
Poor social protection coverage...

- Majority of workers on digital labour platforms are lacking social protection coverage
- Large gaps in health insurance; work-related injury provision; unemployment and disability insurance; and old-age pension or retirement benefits

...leaving platform workers at risk from COVID-19

- On location-based platforms, **7 out of 10 workers** indicated not being able to take paid sick leave, or to receive compensation, in the event they were to test positive for the virus
Algorithmic management is defining the everyday experiences of workers

- Ratings and reputation are decisive for accessing work
- Rejection of work and low ratings are common
- Unable to refuse or cancel work without negative impacts
- Some workers face account deactivation
- Many are unaware of formal process for filing a complaint or seeking help
- Monitoring of work processes and tracking of workers

- Workers’ ratings are decisive for accessing work
  - Freelance platforms: 82%
  - Taxi: 72%
  - Delivery: 65%
- Workers whose work was rejected
  - Freelance platforms: 86%
- Lack of awareness of a dispute resolution mechanism
  - Freelance platforms: 52%
  - Taxi: 42%
  - Delivery: 32%

Workers on freelance platforms
- 47% are monitored by their clients for hours worked...
- 46% are required to take screenshots of their work...
- 43% are required to be available during a specific time...
- on a regular basis
Platforms redefining the relationship between formal education and access to work

- Workers’ education is not necessarily correlated with their income levels on platforms
- Freelance platforms: **Skills often a good match (62%)**
- Competitive programming platforms: **Opportunity to learn new skills or upgrade their existing skill-sets**
- Microtask platforms: **Highly educated but performing tasks requiring low skills**
- Location-based platforms: **20% are highly educated**
Diverse practices of regulation for platform workers across the world

- **Canada**
  - Unreasonable dispute resolution process invalidated

- **United States**
  - Diverse approaches to classification of platform workers

- **Peru**
  - Establishment of fund for COVID-19 and data transparency

- **Uruguay**
  - Digital social security contributions and tax payments for platform workers

- **Argentina**
  - Prohibition of child labour, including through platform work

- **France**
  - Right to disconnect for some platform workers

- **Spain**
  - Mandatory employment injury insurance legislation

- **Nigeria**
  - Data protection regulation affecting platform workers

- **Brazil**
  - Occupational safety and health coverage transcending employment relationship

- **South Africa**
  - Anti-discrimination law applying to all workers

- **Denmark**
  - Hilfr collective agreement pertaining to certain platform workers

- **Germany, Austria, Sweden**
  - Organising online web-based platform workers

- **Korea**
  - Work injury benefits extended to some platform workers

- **China**
  - Work injury benefits extended to some platform workers

- **India**
  - Social security benefits extended to platform workers

- **Indonesia**
  - Work injury benefits extended to some platform workers

- **Australia**
  - Occupational safety and health obligations transcending employment relationship

- **New Zealand**
  - Occupational safety and health obligations transcending employment relationship
A way forward through international policy dialogue and coordination

- Employment status
- Right to bargain collectively
- Adequate social security benefits
- Dispute resolution mechanism
- Fair termination process
- Fair payments and working time standards
- Non-discrimination
- Occupational safety and health
- Transparency and accountability in algorithms and ratings
- Access to local jurisdictions
- Data protection
- Portability of worker data and ratings
- Enabling environment for sustainable enterprises
