

► COMPARISON OF SELECTED RESULTS of online evaluations of the Project implementation by the stakeholders and beneficiaries (2020, 2021, 2022)¹

Awareness about Project's activities and results

In general, the evaluation of the awareness about the Project's activities and results was considered "good" by the respondents by years (with an average score of 4.0) (Fig.1).

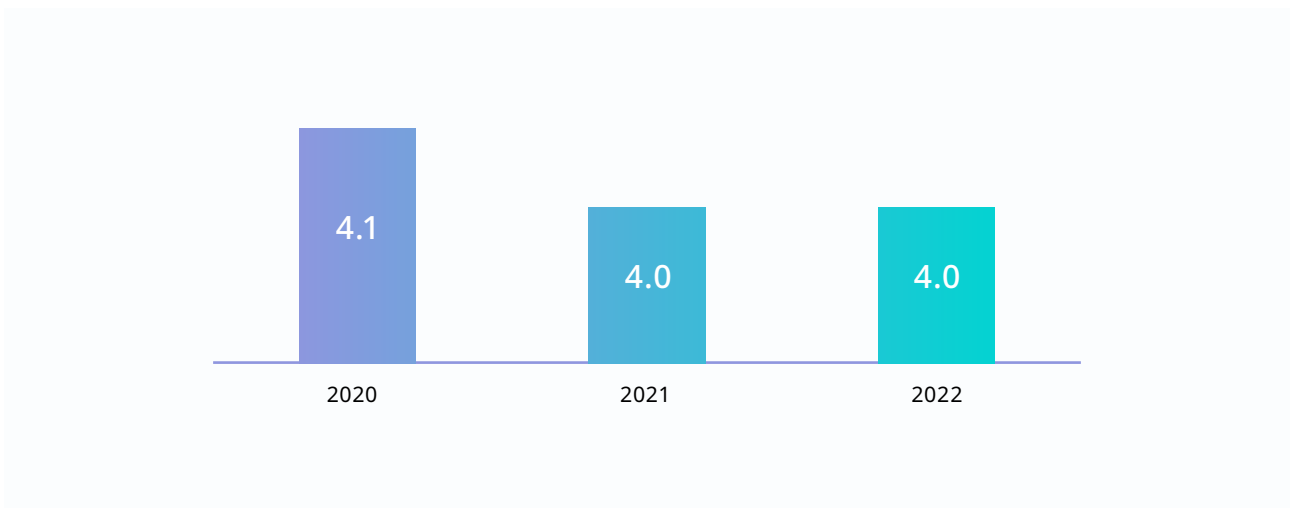

Fig. 1 — Evaluation of the awareness about the Project's activities and results by years (average score)

¹ Only selected results are compared, those derived from the questions that were repeated in each online evaluation questionnaire, which is a precondition for their comparability.

Quality of Project's communication

As for the quality of the Project's communication (channels used, content and format), the respondents evaluated it as very good, with slight difference of average rating by years (Fig. 2).

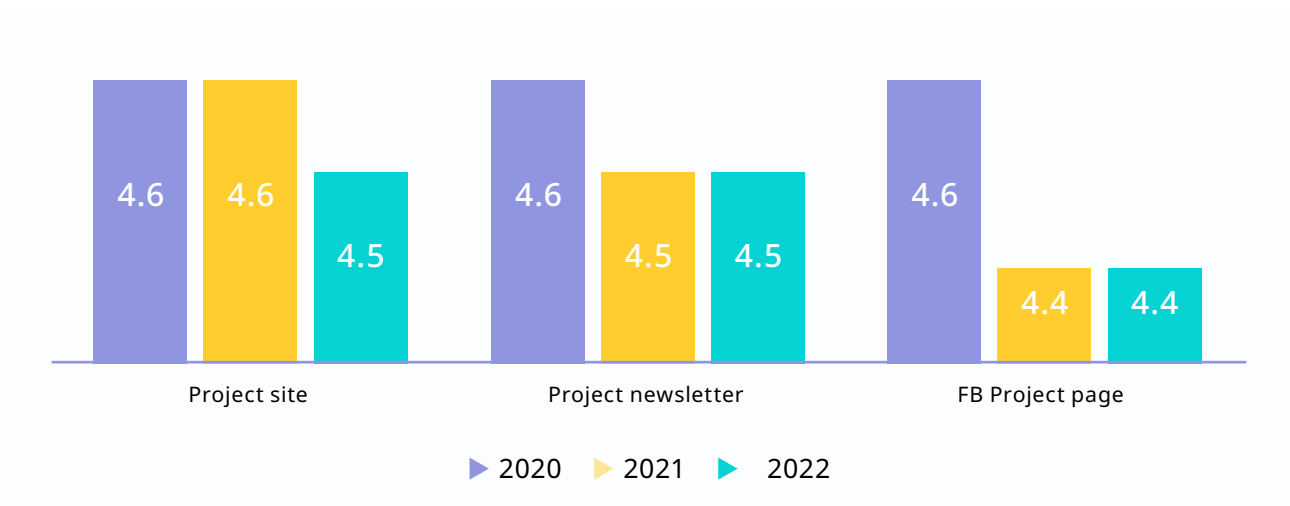

Fig. 2 – Quality of Project's communication channels by years (average score)

Project's contribution

In general, respondents find the Project's contributions useful to improve the current situation in Ukraine in the areas it covers (Fig.3).

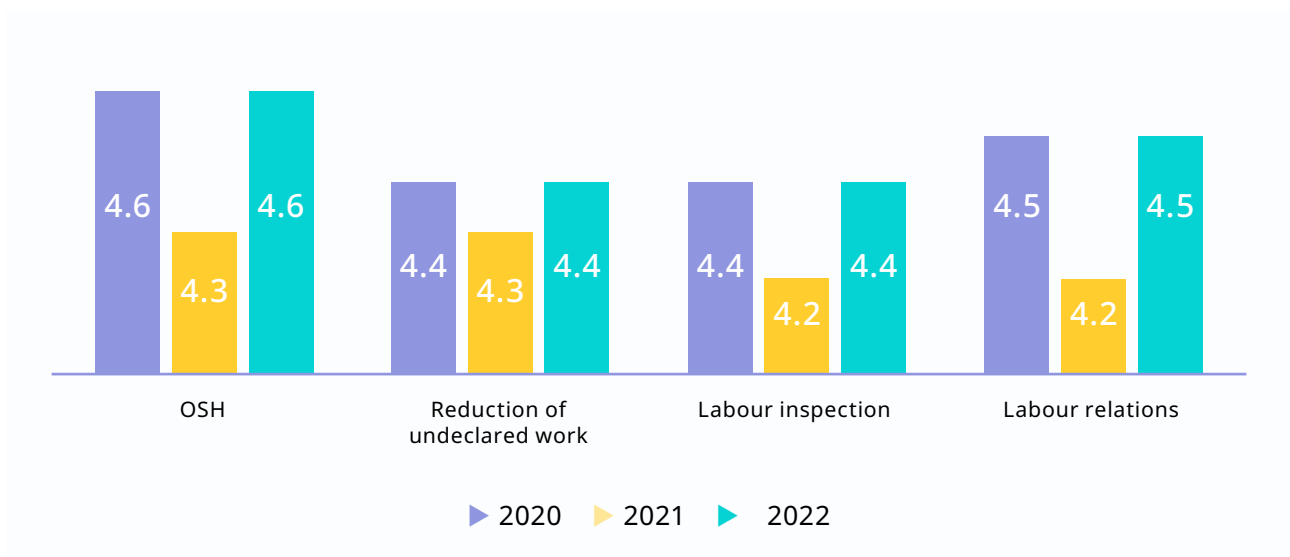

Fig. 3 — Evaluation of Project's contributions to the improvement of the current situation in Ukraine per covered area by years (average score)
